September 2021

National Educational Policy 2020:

The approval of the National Education Policy (NEP) by the Ministry of Human Resource Development, Government of India has been well deliberated as discussed from the last 4 years and more. The advent of industry 4.0 scenario has led our current system of education outdated. Hence, the NEP is designed to contemplate the current skill requirements. The Indian education system with its earlier policies on education has greatly led to creation of fragmented system of education. However, bringing the whole system into one large umbrella remains a key issue. The current NEP has attempted to cure the same by getting rid of standalone institutions and institutions of affiliated nature and proposed formation and upgradation of institutions to offer multidisciplinary education. Multidisciplinary education system with inbuilt flexibility for both undergraduate as well as post graduate and research level is a key highlight of the NEP. It focuses on promoting and building vocational skills/skill enhancement courses, right from the school level, which can ease the burden on the employment opportunities and supply of proficient/talented workforce. As the experts rightly put it as the syllabi which academia develops should be student centric rather than teacher centric, which used to be so far. As already the Union Cabinet has approved the NEP 2020, it aims to pave way for transformational reforms in school and higher education systems in the country. This policy will replace the 34- year-old National Policy on Education (NPE),1986.

Vision of the National Education Policy 2020

- An education system that contributes to an equitable and vibrant knowledge society, by providing high-quality education to all.
- Develops a deep sense of respect towards the fundamental rights, duties and Constitutional values, bonding with one's country, and a conscious awareness of one's role and responsibilities in a changing world.
- Instills skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living, and global well-being, thereby reflecting a truly global citizen.

This National Education Policy 2020 is the first education policy of the 21st century and aims to address the many growing developmental aspirations of our country. This Policy proposes the revision and revamping of all aspects of the education structure, including its regulation and governance, to create a new system that is aligned with the aspirations & goals of 21st century education, including SDG4, while building upon India's traditions and value systems. NEP aims for India to have an education system by 2040 that is second to none, with equitable access to the highest-quality education for all learners regardless of social or economic background and seeks to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all" by 2030." The whole of the NEP policy is a medication to cure the shortcomings in the education system for the last 35 to 36 years. The failure or success of the NEP will rely completely on the implementation and its acceptance by the stakeholders. For which we need to join hands in strengthening the system.

COMPOSITION OF CURRICULUM DRAFT COMMITTEE FOR FOLKLORE

Sl. No.	Names	Position	Signature
1.	Dr. K. N. Ganga Naik (8105462759) Registrar, Karnataka Folklore University, Gotagodi.	Chairman	
2.	Dr. M. Nanjiah (99007 85982) Professor, University of Mysore, Mysuru.	Member	Sd/-
3.	Dr. V.L. Patil (6360055327) Professor, Karnatak University, Dharwad	Member	Sd/-
4.	Dr. Manjunatha Bevinakatti, (9449220870) Professor, Kannada University, Hampi.	Member	Sd/-
5.	Dr. H. R. Chethana, (9611130450) Assoc. Professor, Maharaja's College, Mysuru.	Member	Sd/-
6.	Dr. Tejaswini B. Yakkundimath (9980033578) Special Officer, Karnataka State Higher Education Council	Member Convener	Sd/-

ACKNOWLEDGEMENT

The Members of the Curriculum Development Committee are grateful to our Dr. C.N. Ashwathanarayan, Hon'ble Minister for Higher Education, Hon'ble Minister for Science and Technology, Hon'ble Minister for IT and BT, Hon'ble Minister for Skill Development and Livelihood, Government of Karnataka for offering an opportunity to deliberate such vital issue of state importance in the area of Folklore Education and to develop model curriculum.

The Chairman and Members of the Curriculum Committee are also thankful to Prof. Thimme Gowda, Chairman, Task Force Sub-Committee on Curricular Reforms in Higher Education, Prof. Gopala Krishna Joshi Executive Director, Prof. D. B. Naik The language Committee Chairman and Vice- Chancellor Karnataka Janapada University, Dr. Tejaswini B. Yakkundimath Member Convener, KSHEC, Government of Karnataka, Bengaluru, Karnataka for incessant support during the preparation and development of New Curriculum Framework.

Pedagogy

In addition to Conventional Time-Tested Lecture Method, the Members of the Curriculum Development suggest the following approaches:

- 1. Case Based Learning:** Practical exposure can be given to students through Case based learning/critical learning tool. It enhances skills of students in analyzing the organizational problems and learning to arrive at critical decisions. They learn to apply concepts, principles and analytical skills to solve there a situation problem.
- 2. Experiential/ Live Projects/ Grass Root Projects:** To bridge the gulf between the theory and practice, the students have to be encouraged to take up experiential projects/Live Projects/Grass Root Projects in companies/organizations/ home Industries/rural small Scale Industries .
- 3. Team Spirit and Building:** To internalize the core curriculum, working in teams and developing team spirit is essential. Interdisciplinary learning across outside the faculty would help students in equipping with these skills.
- 4. ICT teaching with global touch:** With the use of modern ICT technology students' learning in class room marches towards digitization. Getting connected to people through e-mode who are located all over the world and who bring real-time insights from their industries, their customers, happenings in their local place and environment. This sparks different ways of thinking as well as cover the conventional material.
- 5. Leadership Building:** Apart from developing a strong background in the functional areas of Folk tradition and Folk literature, the Model Curriculum focuses on developing New Age Leadership capabilities among the students.
- 6. Native engineering skills:** The students to acquire basic knowledge and understanding of the artifacts and cultural patterns. The course will further enable them to gain knowledge of folk science and technology of various communities. Finally it will help the students to familiarize with the importance of material culture in the region.
- 7. Folk Singing & Dancing skills:** This course intends to acquaint the students with the concept of Ethnomusicology as a discipline. Folk music has broad appeal and extensive influence. It keeps the Students connected to their past and their culture. Traditional music is a symbol for a nation's culture. Traditional music can help unite people from the music's country of origin. Familiarize the students with performing art forms and also to enable them to understand and appreciate the different Performing Art trends.
- 8. Folk Communication integrate with Modern form of communication:** This course will familiarize students with the similarities in people's expressive behaviors. This course aims to lead the students to the understanding of media as modern form of communication; familiarize them with the relationship Folklore share with various forms of Media Communication; enable them to learn the various forms of folklore that was used by media experts as catalyst for mass production; and help them gain insight of the operational dimension of the traditional folk media vis-a -vis modern media in the region.

Suggestive Guidelines for Continuous Internal Assessment And SemesterEnd Examination

Total Lesson Units of Each Paper – 04 Units
(Including Preliminary Introduction, Theoretical description)

Note: Examination Marks (Theory) : 70 Marks
Internal Assessment : 30 Marks

Maximum Marks for Each Paper : 100 Marks

DETAILS OF INTERNAL ASSESSMENT:

Internal Assessment will be done as follows for each paper for
ALL SEMESTERS

Test	Duration	Marks
TEST C-1	At the end of 2 nd month of the every semester (ONE HOUR)	05
TEST C-2	At the end of 4 th Month of the every semester (ONE HOUR)	05
C-1	Continuous Assessment during the First 2 Months (Tutorial seminar Assignments)	05
C-2	Continuous Assessment during the Last 2 Months (Tutorial and Practical's)	05
C-1	Seminar	05
C-2	Assessment	05
	TOTAL MARKS	30
C-3	At the end of the Each Semester, Examination of 3hr duration will be conducted for 70 marks	70
	TOTAL MARKS	100

Model Question paper pattern for all papers in BA./ B.Sc/ B.COM./ BBA AND BCA

Model Question Paper

Max Marks: 70

Max Time: 3 hrs

1. Answer any three questions. All questions carry equal marks.

12x3 = 36

- a)
- b)
- c)
- d)
- e)

2. Answer any four questions. All questions carry equal marks.

6x4 = 24

- a)
- b)
- c)
- d)
- e)
- f)
- g)
- h)

3. Answer any five questions. All questions carry equal marks.

5x2 = 10

- a)
- b)
- c)
- d)
- e)
- f)
- g)

		Two Courses from the Selected Elective Group 8.5 (A) & 8.5(B)	DSE-6	3+1+0	70*	30*	100*	3*
Sub –Total (H)					350/ 330*	170/ 150*	500/ 600*	20/ 26*
Grand Total – Honors					2800/ 2780*	1220/ 1200*	4000/ 4100*	136/ 142*

* Students who do not opt Research Project / Internship shall take two elective courses such as 8.5 (A) & 8.5 (B). Sub Total (H) and Grand Totals Honors vary accordingly.

BACHELOR DEGREE WITH HONORS – Experience of workplace problems solving in the form of internship or research experience preparing for higher education or entrepreneurship experience.

Notes:

- One Hour of Lecture is equal to 1 Credit.
- Two Hour of Tutorial is equal to 1 Credit (Except Languages).
- Two Hours of Practical is equal to 1 Credit

Acronyms Expanded

- **AECC** : **Ability Enhancement Compulsory Course**
- **DSC©** : **Discipline Specific Core (Course)**
- **SEC-SB/VB** : **Skill Enhancement Course-Skill Based/Value Based**
- **OEC** : **Open Elective Course**
- **DSE** : **Discipline Specific Elective**
- **SEE** : **Semester End Examination**
- **CIE** : **Continuous Internal Evaluation**
- **L+T+P** : **Lecture+Tutorial+Practical(s)**

Note: Practical Classes may be conducted in the Computer Lab or in Class room depending on the requirement. One batch of students should not exceed half (i.e., 50 or less than 50 students) of the number of students in each class/section. 2 Hours of Practical Class is equal to 1 Hour of Teaching, however, whenever it is conducted for the entire class (i.e., more than 50 students) 2 Hours of Practical Class is equal to 2 Hours of Teaching.

Significance of Folklore Studies

The study of folklore focuses on a broad spectrum of social expression, examining the forms and ways of living through which communities shape their reality. Those forms include language, work, food, play, dance, song, gestures, beliefs, lifestyle and so forth. Folklore studies facilitate us to discover the roots of the distinctive communities, the commonality of varied cultures and of course our ethnic identities.

There is an urgent need of exploring the traditional art and cultural glory through research and it is needed to disseminate the abundant skill of specific arts, embedded in the life of the people of our land. Folklore has been used as a mechanism to reconstruct ancient beliefs, customs and rituals. One aspect of folklore studies is that it helps us to understand the rich folklore and mystic tradition of our ancestors. The significance of the folklore it can feed your creative soul as it is constantly inspiring artists, writers, musicians, makers and many others.

Training in folklore studies offers valuable preparation for carriers in variety of cultural enterprises.

There is a lot of scope even for the job opportunities like livelihood practices especially in various performing art forms through NGO's, traditional architecture\interior designer, traditional food and beverages, folk medicine and folk medicinal tourism, traditional costume designers, traditional sports, handicrafts, pottery, traditional toys making and many more. Hence Folklore basically based on the skill development.

Course Objectives

The Course helps the student to:

1. To develop, to research, and retain the knowledge of the Folklore
2. To study the Culture, customs, traditions, rituals, and sustainable lifestyles
3. To study the Traditional language, work, caste, religion, food, sports, Songs, Dance, Drama, beliefs and specific arts
4. Learn various performing art forms of India
5. To study the Socio- cultural status rural and tribal population
6. To study the Folk medicine and medicinal tourism
7. To study the traditional food and beverages along with folk architecture/interior etc
8. Traditional farming and allied indigenous sustainable activities.

Course Outcomes: By the end of the program the student will:

1. One can have Career as artist, musicians, folk performing art director, cultural event organizer.
2. One can have their career in Folk Medicine, Have knowledge of Traditional practices, Folk culture, Folk Styles

3. Have career in Folk Management. Creates opportunities for individuals and communities to celebrate experience and support ethnic and traditional folk life.
4. Have Career into Rural and Tribal Management
5. Have their career into studying multi culture, multi, language, different race and caste management. Can Gain the knowledge of using language as a creativity to express one's experiences.
6. One can have career into Organizational study, behavioral study in industries.
7. One can have career into cultural studies.
8. One can have career into folk architecture concerned to present market demand.

Sl. No.	Name of the Courses
1.	Rural and Tribal Community Project Reports & Viva Voce
2.	Rural Traditional Knowledge System Analysis and Reports
3.	Internship in Rural and Tribal People
4.	Home Industry Analysis and Reports
5.	Digitalization of Indigenous Knowledge System
6.	Training & Development in Indigenous Knowledge System Documentation
7.	Communication & Documentation
8.	New Venture Planning Indigenous Knowledge System and its Development
9.	Community Leadership & Community Development
10.	Folk Event Management
11.	Advertisement & Personal Selling (with the help of Folk Art's)
12.	Managing Digital Platforms for popularization of Folk performing Art's and Indigenous Knowledge System
	Others (if any)

III. Ability Enhancement Compulsory Courses	
Sl.No.	Name of the Courses
1.	Languages – 1: Kannada/Hindi/Urdu/ Sanskrit/Others
2.	Languages – 2: English/Others
3.	Environmental Science
4.	Indian Constitution
	Others (if any)

2. Choice Based Credit System (CBCS) Structure

The Four Year Multidisciplinary Undergraduate Program follows the choice based credit system (CBCS), which is in practice globally in all the Universities and Colleges at present. CBCS is an internationally acknowledged system, not only offers opportunities and avenues to learn core subjects but also explore additional avenues of learning beyond the core subjects for holistic development of an individual.

The choice based credit system has been adopted to make undergraduate education 'studentcentric' rather than 'systemcentric' or 'teachercentric'. It is to create a holistic curriculum. Thus, in addition to dedicated focus on a discipline through core papers, elective papers have been added which will give students the freedom to choose the allied/ applied/ broad areas of their discipline and also the areas of other disciplines of their interest. Further, aligning with the vision of the Government, special emphasis has been given to ability enhancement and skill development courses. Students will have complete freedom to choose these courses from a pool.

As per the choice based credit system, each course shall carry certain number of credits. Credits normally represent the weightage of a course and are a function of teaching, learning and evaluation strategies such as number of contact hours, the course content, teaching methodology, learning expectations, etc. In the proposed programmes, the credits shall be based on the number of instructional hours per week, generally 1 credit per hour of instruction in theory and 1 credit for 2 hours of Tutorial or practical or project work or internship per week. All courses that include Language, Ability Enhancement, Core and Elective courses in Major and Minor Specialization, Research based learning, Project/ Practical/ Internships are assigned credits. Based on these, an average of around 24 credits per semester and a total of around 192 credits per under-graduate honors degree program are assigned.

Implementation of Choice Based Credit System (CBCS)

- i). The **Choice Based Credit System (CBCS)** shall be followed in all the Universities/ Institutions and the stakeholders follow common minimum curriculum and syllabi of the core papers as suggested by the GEC/ NHERC. The allowed deviation from the syllabi shall be as stipulated by these agencies and SHERC.
- ii). The universities are allowed to design their own syllabi for the core and elective papers subject to point no. 1. The GEC/ NHERC may prepare a list of elective papers but the universities may further add to the list of elective papers they want to offer as per the need, expertise and the facilities available.
- iii). Number of Core papers for all Universities has to be same for both UG and PG courses to enable credits transfer and mobility.
- iv). Credit score earned by a student for any course shall be included in the student's overall score tally irrespective of whether the course is offered by the parent university (degree awarding university/institute) or not.
- v). Ability Enhancement (AE) Courses be divided into two categories:

- a) AE Compulsory Courses (AEC): The universities may have common curriculum for these papers. There may be one paper each at least in the 1sttwo semesters viz. (i) English/ Communication, (ii) Environmental Science;
- b) Skill Enhancement Courses (SEC): The universities may offer from a common pool of papers listed by GEC/ NHERC or the universities may frame some papers, in addition to the list suggested by GEC/NHERC.
- vi). An undergraduate degree with Honors in a discipline may be awarded if a student completes 14 Core Courses in that Discipline, a minimum of 10 courses under the category of Discipline Specific Electives, Generic Electives, Minor Discipline and Vocational Courses, 2 Language Courses, 2 Ability Enhancement Courses (AEC), a minimum of 2 Skill Enhancement Courses (SEC) and 2 Extra Curricular Activities (ECA), ensuring that the total credits earned is not less than 184credits.
- vii). The credit(s) for each theory paper/practical/tutorial/project/ dissertation will be as per the norms followed globally. The suggestive details are given in Tables in the Appendix in these regulations.
- viii). Wherever a University requires that an applicant for a particular Masters/ Technical/ Professional course should have studied a specific discipline at the undergraduate level, it is suggested that obtaining 84 credits in the concerned discipline at the undergraduate level may be deemed sufficient to satisfy such a requirement for admission to the Masters/ Technical/ Professional Programme.

3. The Category of Courses and Their Descriptions

1	Languages	Languages provide the medium of fresh and free thinking, expression and clarity in thought and speech. It forms as a foundation for learning other courses. Helps fluent communication. In addition to English, a candidate shall opt for any of the languages studied at the Pre- University or equivalent level.
2	Foundation Courses/ Ability Enhancement Courses (AECC)	Foundation Courses enable students to develop a deeper sense of commitment to oneself and to the society and nation largely. These courses will supplement in better understanding of how to integrate knowledge to application into a society. Ability enhancement courses are the generic skill courses which are basic and needed to all to pursue any career. These courses ensure progression across all careers.

3	Skill Development Courses/ Vocational Courses (SDC/VOC)	Skill Enhancement/Development courses are to promote skills pertaining to a particular field of study. The purpose of these courses is to provide students life-skills in hands-on mode so as to increase their employability/ Self-employment. The objective is to integrate discipline related skills in a holistic manner with general education. These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge. Each University has complete freedom to suggest their own papers under this category based on their expertise, specialization, Requirements, scope and need.
4	Discipline based Introductory Courses	Introductory courses bridge the gap for a student if he/she has not got a basic groundwork in a specific area of discipline.
5	Major Discipline Core Courses (MDCC)	A Major discipline is the field in which a student focuses during the course of his/her degree. A course in a discipline, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course. The core courses aim to cover the basics that a student is expected to imbibe in that particular discipline. They provide fundamental knowledge and expertise to produce competent, creative graduates with a strong scientific, technical and academic acumen. The courses under this category are to be taught uniformly across all universities with minimum deviation. The purpose of fixing core courses is to ensure that all the institutions follow a minimum common curriculum so that each institution adheres to a common minimum standard which makes credit transfer and mobility of students easier.
6	Major Discipline Elective Courses (MDEC)	Elective Course is a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or enables an exposure to some other discipline/subject/domain or which nurtures the candidate's proficiency/skill. Elective courses offered under the main discipline are referred to as Discipline Specific Electives. These courses provide more depth within the discipline itself or within a component of the discipline and provide advanced knowledge and expertise in an area of the discipline. The institutions have freedom to have their own courses based on their expertise, specialization, requirements, scope and need. The elective courses may be of interdisciplinary nature
7	Minor Discipline Courses (MDC)	A Minor Discipline is a secondary specialization that one may choose to pursue in addition to a Major Discipline. They may be related areas of studies or two distinct areas of studies which are not interrelated at well.

8	Generic Elective Courses (GEC)	Generic Elective Courses are courses chosen from an unrelated discipline/ subject, with an intention to seek exposure beyond discipline/s of choice. The purpose of these is to offer the students the option to explore disciplines of interest beyond the choices they make in Core and Discipline Specific Elective Courses. Note: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Electives.
9	Project work/ Dissertation/ Internship/ Entrepreneurship	Project work is considered as a special course involving application of knowledge in solving / analyzing / exploring a real life situation / difficult problem/ data analysis. Project Work has the intention to provide research competencies at Undergraduate level. It enables to acquire special/ advanced knowledge through supplement / support study to a project work. Candidates shall carry out project work on his/her own with an advisory support by a faculty member to produce a dissertation/ project report. Internship/ Entrepreneurship shall be an integral part of the Curriculum.
10	Extra-Curricular Activities / Co-curricular and Extension Activities (ECA)	These activities help in character building, spiritual growth, physical growth, etc. They facilitate development of various domains of mind and personality such as intellectual, emotional, social, moral and aesthetic developments. Creativity, Enthusiasm, and Positive thinking are some of the facets of personality development and the outcomes of these activities.

4. Salient Features of the Proposed Four Years Multidisciplinary Undergraduate Programme with Multiple Entry and Exit Options

- a) The program shall be structured in a semester mode with multiple exit options with Certification, Diploma and Basic Bachelor Degree at the completion of first, second and third years, respectively. The candidate who completes the four years Undergraduate Program, either in one stretch or through multiple exits and re-entries would get a Bachelor's degree with Honours.
- b) The four year undergraduate Honours degree holders with research component and a suitable grade are eligible to enter the 'Doctoral (Ph.D.) Program' in a relevant discipline or to enter 'Two Semester Master's Degree programme with project work'.
- c) Candidates who wish to enter the masters/doctoral programme in a discipline other than the major discipline studied at the undergraduate programmes, have to take additional courses in the new discipline to meet the requirement or to make up the gap between the requirement and the courses already studied.
- d) There may be parallel five year integrated Master's degree programmes with exit options at the completion of third and fourth years, with the undergraduate basic degree and undergraduate Honours degree in a discipline, respectively.

- e) There may also be an integrated doctoral programme with exit options at the end of the fourth and fifth years with the Bachelor degree with Honours and the Master's degree, respectively.
- f) The students who exit with Certification, Diploma and Basic Bachelor Degree shall be eligible to re-enter the Programme at the exit level to complete the programme or to complete the next level. The candidates may have a maximum of two exit options or lateral entries to complete the programme.
- g) The Multidisciplinary Undergraduate Programme may help in the improvement of all the educational outcomes, with a flexible and imaginative curricular approach. The program provides for both breadth and depth in diverse areas of knowledge. A range of courses are offered with rigorous exposure to multiple disciplines and areas, while specializing in one or two areas. The programme fulfils knowledge, vocational, professional and skill requirements along-side humanities and arts, social, physical and life sciences, mathematics, sports etc.
- h) The curriculum combines conceptual knowledge with practical engagement and understanding that has relevant real world application through practical laboratory work, field work, internships, workshops and research projects.
- i) A few courses are common to all students which contribute to the breadth of study and two areas of specialization in disciplinary areas provides for depth of study.
- j) The areas of specialization which the Students are required to choose are either one or two disciplines/subjects or a 'major' (e.g. History or Economics or Philosophy or Physics or Mathematics) and an area of additional discipline called 'minor' (e.g. Music or Sports or Geography). Students gain deep disciplinary knowledge through theory and practical experiences in their area of specialization (major). They gain a reasonable understanding of the area of additional study (minor) that they choose. Students can choose subject combinations across 'streams' (e.g. a student can choose a 'major' in physics and combine it with a 'minor' in history or Music or Sports). One of the disciplines can also be a vocational subject or Teacher Education.
- k) The students may study two disciplines at the same level or breadth up to the sixth semester and choose one of them for study in the fourth year to obtain the Honours degree in that discipline. A student who wishes to get dual degrees may repeat the fourth year of the program in the second discipline.
- l) The students may choose one discipline and vocational subject or Teacher Education for their study in the undergraduate program. This will enable them to get an Honours degree either in the discipline or in the vocational subject/Teacher Education or both, in the discipline and in the vocational subject/Teacher Education.
- m) Skills shall be explicitly integrated, highly visible, taught in context, and have explicit assessment. The skills shall include abilities in language and communication, working in diverse teams, critical thinking, problem solving, data analysis and life skills.
- n) Students shall be given options to choose courses from a basket of courses which the institution is capable of offering. There shall be no rigidity of combination of subjects.

5. Four Alternate options of Study to make the course more broad based

Option 1	Single Discipline Major along with Languages, Generic Electives, Ability Enhancement, Skill Development and Vocational courses including the Extracurricular Activities (Co-curricular and Extension Activities)
Option 2	One Major and one Minor Discipline along with Languages, Generic Electives, Ability Enhancement, Skill Development and Vocational courses including the Extracurricular Activities
Option 3	Two Major Disciplines along with Languages, Generic Electives, Ability Enhancement, Skill Development and Vocational courses, including the Extracurricular Activities
Option 4	One Major Discipline and One Vocation Discipline along with Languages, Generic Electives, Ability Enhancement and Skill Development and Courses including Extracurricular Activities.

6. Progressive Certificate, Diploma, Bachelor Degree or Bachelor Degree with Honors provided at the end of each year of Exit of the Four years Undergraduate Programme

Exit with	Credits Requirement*
Certificate at the Successful Completion of First Year (Two Semesters) of the Four Years Multidisciplinary Undergraduate Degree Programme	44 – 48
A Diploma at the Successful Completion of the Second Year (Four Semesters) of the Four Years Multidisciplinary Undergraduate Degree Programme	88 – 96
Basic Bachelor Degree at the Successful Completion of the Third Year (Six Semesters) of the Four Years Multidisciplinary Undergraduate Degree Programme	132 - 144
Bachelor Degree with Honours in a Discipline at the Successful Completion of the Four Years (Eight Semesters) of the Four Years Multidisciplinary Undergraduate Degree Programme	176 - 192

7. Proposed Curriculum Framework for Four Years Multidisciplinary Undergraduate Programme

Year	Objective	Nature of Courses	Outcome	No. of courses
1st year – 1 st & 2 nd Semesrs	Understanding and Exploration	1. Major CoreCourses 2. Minor/Related Discipline 3. Languages, 4.Ability Enhancement Compulsory Courses 5. Skill Enhancement/ Development Courses	Understanding of Disciplines	1+1
			Language Competency	1+1
			Gaining perspective of context/Generic skills	2+2
			Basic skills sets to pursue any vocation	1+1
				1+1
Exit option with Certification				
2 nd Year - 3 rd & 4 th Semesters	Focus and Immersion	1. Major CoreCourses 2. Minor/ Related Discipline 3. Ability Enhancement courses 4.Skill based Vocation course	Understanding of Disciplines	2+2
			Gaining Perspective of context Skill sets to pursue vocation	1+1
			Facilitate development Of various domains of mind and personality	1+1
				1+1
		5. Extra Curricular Activities		
Exit Option with Diploma				
3 rd Year – 5 th & 6 th Semesters	Real time Learning	1. Major Discipline Core and Elective Courses 2.Minor Discipline/ Generic or Vocational Electives /Field based Learning/ ResearchProject	In depth learning of major and minor disciplines, Skill sets for employability. Exposure to discipline beyond the chosen Experiential learning/ Research Orientation	2+2 1+1 1+1
Exit option with Bachelor Degree				
4 th Year - 7 th & 8 th Semesters	Deeper Concentration	Major Discipline Core and Elective courses Research/Project Work with Dissertation	Deeper and Advanced Learning of the Major Discipline. Foundation to pursue Doctoral Studies and Developing Research competencies	4+4
Bachelor Degree with Honors				

Conclusion:

The Course creates self-confidence among the neglected, rural and tribal communities by bringing them into the mainstream of society through modern education. The study heritage of the indigenous/traditional knowledge with the awareness that “Indigenous culture is not monolithic but redemptively pluralistic”.

It is proposed to prepare the students in folklore as a subject of study. This will entail, primarily, a study of the different theories of folklore. Folklore itself will include folktales, fairytales, folk music, folk dance, folk theatre, spectacles, traditional and sometimes modern festivals. Students will also be given a broad-based study of disciplines such as Anthropology, Psychology, Linguistics, Literature, History, Sociology, Semiotics, Performing, and Visual Arts. They will also be expected to recognize, identify and analyze urban folklore and folklorismus. Students will also be trained in the collection of folklore material in the field using the latest audiovisual gadgets. They will then be taught how to collect, store, categorize and classify the material using digitized methods. The course will prove that folklore is not only about the bucolic and the fanciful but is a discourse that is tuned to the now. The course is designed to make the students understand the dynamism of folklore and its adaptability to contemporary times.

Chairperson of Subject Committee
